

Ozone Tanzone

TAN ZONE: (CONTAINS 60 CAPSULES, MONTH SUPPLY)

Description

Have a perfect golden bronze tan all year round with our TanZone capsules.

TanZone are for all skin types and are used to tan your skin without the harmful UV rays of the sun. The Zeaxanthin, Xanthophyll Complex are organic pigments or natural antioxidants found in brightly coloured vegetables, fruits, plants and some flowers. This is the natural colourant that are used in our capsules for the perfect tan. Lycopene is also used in the mixture, this is the carotenoid that gives tomatoes their red colour and it is also know to help protect against prostate cancer in men, there are also smaller amounts of lycopene found in pink grapefruit, watermelon and other guava type fruits. The L-tyrosine in the capsules helps and enhances all the active ingredients.

Ingredients

1. L Tyrosine
2. Xanthophyll
3. Lycopene
